

FUNDAMENTALS

Color & Appearance

Fundamentals of Color and Appearance and ColorMaster - QA

A 2-day course covering color and appearance and hands-on instruction using X-Rite instruments and X-Rite ColorMaster™ Quality Assurance software.

Fundamentals of Color and Appearance and ColorMaster - QA

This two day course incorporates everything you need to get started in the world of color, in one place, at one time. Attendees are encouraged to bring samples and questions. Whether your application is paint, plastics, textiles, or ink this training will equip you to implement color control into your commercial setting. Day one introduces the fundamentals of color and appearance, where you'll learn a better way to communicate and control color. Day two builds on what you learned in day one with interactive, hands-on instruction using X-Rite instruments and X-Rite ColorMaster™ Quality Assurance software. An X-Rite Color Expert will teach you how to create standards and tolerances, report color data, and share data both internally and externally with customers and suppliers.

Who Should Attend?

1. Registered users of X-Rite ColorMaster QA Levels 1 and II

Course Overview

- The science of color and appearance
- Quantifying color
- Current standards and practices
- Equipment setup
- Software configuration
- The what and why of instrument geometries
- Calibrating and maintaining your instrument
- How to create and maintain standards and samples
- How to establish achievable tolerances
- How to use special features: projects, jobs, reports
- And more

Benefits of Learning from X-Rite

- Interactive, hands-on instruction using X-Rite instruments and X-Rite ColorMaster™ software.
- Learn the best practices on how to communicate and control color.
- An X-Rite Color Expert will work with you on how to create standards and tolerances.
- Live and applicable demonstrations.
- Participants are encouraged to bring their own samples to make the training more applicable to their field of work.
- Q & A throughout the day.
- You'll have the knowledge and tools to be self-sufficient within your color workflow to increase your company's productivity.

Course Length: 2 Days

Location: X-Rite

Pricing: \$995 per person
